SAFETY COMPLIANCE, CONFIGURED YOUR WAY.

Built for modern EHS teams, EHS Hero® gives you the flexibility to tailor compliance tracking, safety workflows, and regulatory monitoring to the way your organization operates.

- ▶ Customize your dashboard to prioritize audits, incidents, corrective actions, training, and compliance updates most relevant to your role
- ▶ Add quick links to frequently used systems, documents, and external platforms for faster access
- ▶ Create and share Collections by topic, hazard, regulation, or workflow to keep teams aligned across locations
- ▶ Choose the compliance notifications and regulatory alerts you want delivered directly to your inbox
- ▶ Centralize safety guidance, compliance tools, training resources, and workflows in one connected platform

Everything your team needs to stay organized, audit-ready, and proactive about risk management—all in one place.

COMPLIANCE SUITE

EHS HOTLINE

Submit questions and get timely, thorough, easy-to-understand answers to your most pressing questions. Questions are answered on a one-to-one basis by our team of subject matter experts—complete with resources and reference links.

What it solves for: Get answers to questions unique to your organization to help you avoid inaccurate and outdated information that could lead to injuries, fines, violations, and lawsuits.

KEY FEATURES

- ▶ Thorough responses by industry experts in 1-3 business days
- ▶ Personalized, actionable, and reliable information
- ▶ Direct links to applicable regulations included in responses

Associate Editor

Timothy P. Fagan
Managing Editor

Each of the Compliance Suite tools are included in a standard EHS Hero subscription.

COLLECTIONS

Collections make it easy to organize and share frequently used safety and compliance resources by topic, regulation, hazard, workflow, or facility.

KEY FEATURES

- ▶ Create custom collections of training materials, policies, procedures, and compliance guidance
- ▶ Organize content by hazard, OSHA topic, jurisdiction, department, or operational workflow
- ▶ Share collections through direct links with supervisors and stakeholders
- ▶ Keep frequently referenced resources centralized and easy to access across teams and locations
- ▶ Reduce time spent searching for recurring compliance and training information

NOTIFICATION CENTER

The Notification Center helps EHS teams stay ahead of regulatory changes, overdue actions, and compliance updates—reducing manual monitoring and improving visibility across safety programs.

KEY FEATURES

- ▶ Tailor notifications to receive the compliance updates, regulatory alerts, and resources that matter most to your team
- ▶ Receive real-time notifications by email and within the platform

Each of the Compliance Suite tools are included in a standard EHS Hero subscription.

PLAN BUILDER

Create custom plans that meet the needs of your organization in minutes from our library of preloaded templates filterable by keyword, topic, market, and recommended.

What it solves for: Eliminates the risk and uncertainty of using open-sourced AI by providing expert-built, customizable templates that ensure OSHA-compliant plans to meet audit requirements.

KEY FEATURES

- ▶ Over 100 pre-built templates
- ▶ Option to upload your own existing plans
- ▶ Review functionality provides feedback and approvals
- ▶ Plans can be downloaded in multiple formats and saved for future use

REGULATORY ACTIVITY

Save time researching relevant federal and state EHS requirements with this comprehensive, continuously updated database of notices and proposed and final regulations.

What it solves for: It eliminates the complexity of managing EHS compliance by providing a trustworthy source of truth for your research and planning.

KEY FEATURES

- ▶ Filters offer the most relevant topics and categories impacting your organization
- ▶ Includes targeted updates directly to your email as regulations change
- ▶ Finalized federal and state environmental and safety regulations
- ▶ Updates from the Federal Register providing notices of EPA and OSHA agency actions
- ▶ Daily feed of proposed federal and state environmental and safety regulations

Each of the Compliance Suite tools are included in a standard EHS Hero subscription.

REGULATORY ANALYSIS CHART BUILDER

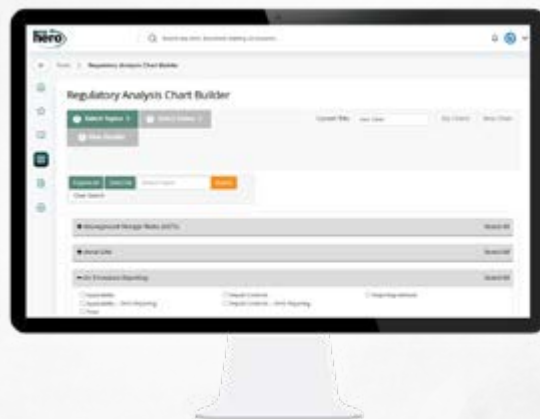

Build comparison charts to clearly identify what your state and federal procedures, training, and records must contain to avoid unnecessary risk.

What it solves for: Seasoned industry experts simplify state and federal regulations so you can quickly compare regulatory requirements side by side across multiple jurisdictions.

KEY FEATURES

- ▶ Search, compare, and save regulations at the federal, state, and municipal levels
- ▶ Unlimited number of reports for creation and export
- ▶ Built-in regulations spanning 55+ topics and over 400 subtopics
- ▶ Trusted resources from proven industry experts at your fingertips

REPORT A SPILL

Provides users with all the tools and information needed to quickly and accurately report workplace spills.

What it solves for: It takes the guesswork out of spill reporting requirements.

KEY FEATURES

- ▶ Reporting time frame broken down by hazardous substance
- ▶ Includes contact information for federal and state websites

Each of the Compliance Suite tools are included in a standard EHS Hero subscription.

SDS SEARCH

Access, save, and easily share the most current safety data sheets from our extensive SDS database.

What it solves for: Having a single source for SDSs can save you time, help you stay in compliance with agency requirements, and protect your workers from hazards on the job.

KEY FEATURES

- ▶ Information provided by product identifier, manufacturer/supplier, or CAS#
- ▶ Robust keyword search
- ▶ Exportable as PDFs

RESOURCE LIBRARY

Access hundreds of hazard- and industry-specific safety plan templates, policy examples, ready-to-use checklists, and other documents to save you time and keep you on task.

What it solves for: Ensure your organization meets its compliance obligations with the latest regulations, guidelines, and industry best practices.

KEY FEATURES

- ▶ Federal and state checklists for assessing compliance with EHS regulatory requirements and best practices
- ▶ Guidelines for OSHA in communicating and implementing its policies and procedures
- ▶ Customizable EHS newsletters intended for distribution to an organization's workforce
- ▶ Access to thousands of state and federal forms to satisfy EHS compliance requirements and keep your workplace safe
- ▶ Get step-by-step federal and state-specific compliance guidance on critical EHS topics
- ▶ OSHA letters of interpretation explain how safety requirements apply to specific situations
- ▶ Access compliant safety policies that can be customized to your organization.
- ▶ Workplace posters that promote safe work practices and wellness and help avoid workplace injuries or illnesses

Each of the Compliance Suite tools are included in a standard EHS Hero subscription.

TRAINING MATERIALS

Access everything you need to deliver effective training, stay compliant, and promote a safety culture in your organization with a comprehensive training materials library from full-length training presentations to quick workplace refreshers.

What it solves for: Provides high-quality training presentations and train-the-trainer materials to help you develop, deliver, and assess an OSHA-compliant training program.

KEY FEATURES

- ▶ Training resources sorted by training types, topics, and document format
- ▶ Dozens of presentations in Spanish as well as English
- ▶ Complete ILT presentations, handouts, speaker notes, and quizzes
- ▶ Required and recommended, industry and role-specific Learning Tracks

SAFETY TOOLBOX TRAINER*

Schedule, assign, execute, and monitor training from anywhere with access to over 250 training topics and a dedicated mobile app.

What it solves for: An onsite, instructor-led training tool that lets you assign, execute, and monitor training at the individual and team levels.

KEY FEATURES

- ▶ Accessible on a desktop, tablet, or smartphone through our web app
- ▶ Hundreds of safety meeting topics to train in the office or on-site
- ▶ An unified interface for viewing employee counts, scheduling safety meetings, and recording or maintaining notes.

***Note:** Safety Toolbox Trainer is available as an add-on purchase to the EHS Hero Compliance Suite.

Each of the Compliance Suite tools are included in a standard EHS Hero subscription.
